Re: ADM Decatur (Illinois EPA BOA ID# 115015AAE)
Construction Permit (17070027)

To Distribution List:

In accordance with the Illinois EPA's Environmental Justice Policy, the Illinois EPA wants to provide you with information about a potential Illinois EPA action. The Illinois EPA is sending this letter to notify you an application received by the Illinois EPA Bureau of Air (BOA).

The Illinois EPA has received an application from Archer Daniels Midland Co. requesting a construction permit to make changes to its existing cell mass process line at its facility located at 4666 Faries Parkway in Decatur. This line is used to process small batches of cell mass feedstock leftover from other processes into animal feed. Changes would be made to the spray dryer and product packaging tank on this line to enable processing of additional types of feedstocks.

The applications are currently under review by the Illinois EPA's Bureau of Air.

If you have questions about the applications, please contact Elizabeth Rupel, Office of Community Relations at 217/557-6474, elizabeth.rupel@illinois.gov

Sincerely,

Chris Pressnall
Environmental Justice Officer
